

Winning and Losing Social Story

I like to play games and win. All kids and adults like to win.

When I win, I can say things like “Thank you for playing with me!”, “Good game”, “That was great fun”, “Would you like to play with me again?”

Sometimes I lose. Losing makes me feel disappointed, sad and angry. I don't like losing. Sometimes when I get mad I will run away or say mean things to the winner.

I am so angry!

When I get mad and yell, this makes the winner sad. Kids will think that I am mean and not very fair. Kids will not want to play games with me. This will make me sad because I love to play games!

Why did he yell at me?

He's not very nice

I'm sad no one will play with me

When I lose a game, I need to STOP, take a deep breath and remember to think "Its ok, maybe I will win the next time".

Maybe I will win next time
